# Experience the reindeer calving season

Jan Helmer Olsen

Reindeer calving in Karasjok – Day trip: A once in a life time experience.

Welcome to this unique adventure and to our calving reindeer herd here in Karasjok in Northern Norway.

We start the day with a snowmobile trip through a beautiful landscape to our herd, a 10 minutes long ride. If there is little snow, then we will walk or go with the ATV instead. We will inform you about the snow conditions in advance.

When we arrive, you can sit on a reindeer skin outside, and relax and enjoy the moment fully, and after a while you can join us around the bonfire, where we will tell you everything we know about reindeer calving.

We will serve you fresh coffee brewed traditionally on an open fire, and you will even get to taste dried reindeer meat. During this adventure you will also get the opportunity to feed the reindeer.

By visiting us, you will get to see the reindeer herd up close, and if you are lucky, you might even see reindeer giving birth. You will learn a lot about our

traditions and our culture - and this sure is - a once in a lifetime experience.

# Gáfestallan lávus - Coffee time in our lávvu

Gáfestallan lávus - Coffee the Sámi way in our lávvu (Sámi traditional tent).

We would love to invite you to our homestead and join us for gáfestallan in our cozy lávvu where we make fire and brew the world's best coffee, made over the fire.

Gáfestallan is a traditional social happening, mainly for the Northern Sámi where we share stories about daily life and happenings while drinking coffee.

While enjoying your fresh coffee and having a taste of our self-produced dried reindeer meat, we will let you in on our way of living as Sámi people and

reindeer herders and of course you will hear more about our Sámi traditions and customs in the Karasjok area (Arctic North of Norway).

Your host is English-speaking and loves to share their knowledge and stories about her family's way of living, their traditions, and customs as Sámi reindeer herders.

We will also let you in on the meaning of our company name Áldu which is quite special and give you an insight into the women's role (both modern and traditionally) in reindeer husbandry.

Worlds best coffee: In the lavvu you will be served fresh brewed coffee over open fire, while the host will share about her familys reindeer herding and their traditions.

## What to bring:

Bring warm clothes. We recommend two layers of wool for underneath the winter suit. They may smell a bit of smoke afterwards.

# Visit us at our homestead where we feed and tame reindeer

A guest feeding our reindeer in beautiful nature surroundings at our homestead in Báhkiljohka in Karasjok.

## REINDEER FEEDING:

Join us for a unique moment with our reindeer.

As Sámi reindeer herders we continue with a traditional custom where we tame selected male reindeers for sledging as one means of transportation.

Every day at 10am we feed the male reindeers located at our homestead and clean their surroundings. Join us for a unique moment when feeding our reindeer located at our homestead in a beautiful winter nature scenery.

While feeding the reindeer we will share more information and stories about our way of life as Sámi reindeer herders, our traditions and customs within reindeer husbandry in the Karasjok area in Finnmark (Arctic North of Norway). Which is also one of the last areas in the Nordic countries where reindeer can roam freely and where we still maintain our traditional nomadic lifestyle parts of the year. Your guide and host is English-speaking and loves to share their knowledge and stories about the way of living, traditions, and customs as Sámi reindeer herders.

Visit our Sámi family and hear about the 8 seasons and the northern light stories and myths.

# Northern lights in Sápmi

Welcome to our cosy lavvo at our homestead here in Karasjok, in Northern Norway. We will share stories about life as reindeer herders, and the activities we do during our eight seasons. You will have the opportunity to meet our reindeer, feed them and take photos.

We will serve you coffee or tea and our homemade dried reindeer meat in the lavvo. In the meantime we talk about «Guovssahasat», the Sami word for Northern lights. It literally means 'the light you can hear'. You will hear stories and myths about the Northern lights in Sápmi, how they affected us in the past and how we regard the phenomenon today.

After a warming cup of coffee you can join us outside while we wait for the lights to appear. If they are not visible we will try to call on them with a

«luohti», which is a Sami way of singing. If the sky is cloudy and snowy we may not be able to see the northern lights. But if we are lucky and the skies are clear, we might catch a glimpse of the aurora dancing above us.

After your visit, you will have learned about our life above the arctic circle and how we have lived in harmony with nature and the animals.

# Northern lights in Sápmi overnight stay in traditional lavvo

Stay the night next to open fire with reindeer close by, listening to stories about our ancestors dancing in the northern lights.

We welcome you at our homestead here in Karasjok to spend a night under the stars and, with a bit of luck, under the magical Northern lights. Once you are settled and comfortable in your lavvo, the traditional Sami tent you'll spend the night in, we will visit you in there to share stories about our life as reindeer herders, and the type of activities we do during our eight seasons. You will have the opportunity to meet our reindeer, to feed them and take photos.

You can enjoy a cup of coffee or tea and our speciality of dried reindeer meat while we tell you about Guovssahasat, the Sami word for Northern lights, which literally means 'the light you can hear'. We will share stories and myths about the natural phenomenon in Sápmi, how the lights have affected us in the past and how we regard them today.

After a warming cup of coffee you can join us outside while we wait for the lights to appear. If they are not visible we will try to call on them with a «luohti», which is a Sami way of singing.

If the sky is cloudy and snowy we won't be able to see the aurora, but if we are lucky and the skies are clear, we might get to witness the dancing, colored lights.

After our visit you will have the lavvo for yourself.

You can take the reindeer hides outside, lie down, watch the skies and enjoy the moment. You'll have access to your own toilet in the main house. In the morning we will wake you with breakfast and we'll show you how to make fresh coffee in the lavvo if you want to.

A night in the lavvo is truly special and a unique opportunity to be as close to nature as you can get. You'll fall asleep to the softness of the reindeer skin you lay on and the warmth and light of the fire. Perhaps you even get to see the Northern lights from inside the lavvo. In the morning you'll wake up to a cracking fire – that is, if you manage to keep the fire going throughout the night.. If not we can come and help you warm up the lavvo again.

## What to bring:

Bring warm clothes. We recommend two layers of wool for underneath the winter suit. They may smell a bit of smoke afterwards. We also recommend you to bring a tripod in case the weather conditions are good.

# Live a winter adventure with reindeer and sledge!

We, Heidi Kamilla and Nils Jovvna meet you at the parking place near Bieskkangeiadnu. From here it takes only few minutes walking to reach our sami siida. There, we have a comfortable and warm lavvu and will serve you as a welcome gift a coffee prepared on the fire. The sami life on the Finnmark plateau is a lot about the reindeer and that is also the case during this experience. You will be served reindeer meat and the adequate beverage just as we like to eat it ourselves. After this little meal, we tell you about our ancestors used the rein-

deer sledge and how we use it nowadays. You will learn how you have to behave when we are among reindeer.

Now let's go and meet the reindeer. We rent reindeer and sledges. Then you can enjoy fantastic tour in the surrounding marvellous woods. The tour in autonomy lasts 15 minutes but can be extended if you wish so. Welcome to an amazing morning afternoon in our home and with us in our siida on the plateau.

A visit to Juhls is balm for the soul and a feast for the eyes. Everyone, regardless of age, will create memories to take with them here.

# JUHLS SILVERGALLERY

## – an oasis on the Arctic tundra –

In 1959, Frank and Regine Juhls started Finnmark's first silver workshop, before there was a year-round road connection to the village. This would become their life's work - Juhls Silver Gallery. For 60 years they have created and built...a long and fruitful life that has left its mark. The house emphasizes the generous and gently rolling shapes of the tundra and is an oasis of human creativity.

Over the years, the place has evolved into a gem of personal architecture. Behind the life's work lies a sincere desire to create something beautiful and an indomitable joy in working. You will find the site on a hill above the river just outside the beautiful village of Guovdageaidnu (Kautokeino).

We have our own outlet for both jewelry and Nordic design.

Historical jewelry, traditional Sami silver, and contemporary designs are sold in the store. All jewelry is made entirely in the workshop in Guovdageaidnu (Kautokeino). Craftsmanship and professional pride are strongly emphasized, and we aspire to a sustainable and ethical production with regards to the environment, culture, and society we live in and are part of.

Good to know: Blood pancakes. There are two types of iron: heme iron and non-heme iron. Heme iron is found in animal sources, like reindeer, and is more easily absorbed by the body than non-heme iron found in plants. Of heme iron, about 15-35% is absorbed, while of non-heme iron, only 2-20% is absorbed.

# Luxurious Sámi glamping

Welcome to our village Maze, a small Sami pearl between Alta and Guovdageaidnu. We look forward inviting you to a different kind of luxurious accommodation experience.

A combination of tradition and modern equipment in our huts, each designed with their own story to give you an insight into our cultural heritage and traditions. As our guest, you will get an insight into our daily life as a Sami reindeer herding family, our harvesting traditions and culinary traditions.

In Sápmi we have eight seasons in a year with different activities for each season. The activities you can participate in will vary throughout the year for each season. Read more about what a weekend with us can look like.

With us you get to live close to nature with a magnificent view of our local nature and the famous Maze-Alta river that flows by. Breakfast is served on our big Lavvu with local ingredients.

We recommend combining this product with our other activities.

# Čávžo Canyon an unforgettable nature experience

One of few riverboat tours to Čávžo – Sautso Canyon, with exclusive access and delicious coffee break by the riverside overlooking the canyon.

The area around Čávžu – Sautso canyon is the reindeer grazing area of our siida and you will therefore meet locally known guides who can always tell you the little extra either about the riverboat, the nature and the surrounding landscape and not least the dam. At Čávžu – Sautso, we will go inside the mountain, and you will hear more about its technical details. Before we head back home to Máze, we will invite you to a small gáfestallan in the lavvo we have set up by the dam. Gáfestallan is our way of telling more about each other and getting to know each other over a good cup of campfire coffee and a small snack.

We will tell you the story about the gigantic hydropower dam and how it could have drowned the village if not for Norway's biggest demonstration for the fight for Sámi rights.

This is a unique experience for those who want to indulge the wonderful nature from Máze to Čávžo – Sautso canyon with a traditional river boat. With an almost exclusive Sámi population, many living a reindeer-herding lifestyle, Máze itself is a quiet spot between

the city Áltá and the town Guovdageaidnu (Kautokeino).

We recommend combining with our other activities such as:

Join us for a tour in our traditional riverboat and enjoy our stories about the local history of Máze and the historical cemetery Máze Zion.

# Historical riverboat trip in Máze

You get to experience the amazing nature of Máze with a small guided tour down the river in the Sámi village Máze before we drive up to Máze Zion where you can hear about its historical meaning and founding story.

The historical church cemetery is quite special considering that the

names are written with the ancient Sámi way of writing names.

We round off our tour by gathering in our Lavvu, our traditional Sámi tent, for a traditional two course meal.

We also recommend combining this activity with:

- Sami Restaurant Experience
- Luxurious accommodation

**Price:** From NOK 1700,-

**Included:** Life jacket, blanket of wool, Two course Sami meal which can be replaced with Sami snacks.

# Ráidu – a cosy reindeer sledding winter experience

Right up until the 60s, Ráidu was a common sight in Máze and on the tundra, because today's roads were first built then and machines such as the snowmobile did not exist. Today, we still tame reindeers in the traditional way, both to be able to take care of traditional knowledge and to keep the heritage alive, and because we use our tame reindeer during the reindeer migration.

These are magical moments that are worth experiencing. By the way, did you know that Máze was the inspiration for the Disney movie Frozen 2?

After we return to the camp, we move into the heated lavvo, sit around the fire and listen to stories about old traditions and customs such as the proposal ride, while we enjoy a good cup of coffee

from the fire and strengthen ourselves with a small Sami snack.

We also recommend combining this activity with a Sami meal consisting of the Sami festival meal *biđos* with home-baked bread. The dessert consists of "Mountain Gold", also called cloudberry, with whipped cream, coffee and cake.

Imagine a small village covered in snow and you're cuddled up on big reindeer hides on a sleigh pulled by reindeers.

River boat with fishing and Sápmi culture.

# Riverboat Safari

In Kautokeino, nature is our source of food and the food is based on what nature gives us for every season of game, fish, birds and berries. It tastes heavenly, and best of all, it's completely free! In the hunt for the "secret" fishing lakes, the best hunting grounds or the best cloudberry ants, it is good to have a local acquaintance with you.

The tours include transport, traditional Sami food, and with a local acquaintan-

ce along for the ride, you will of course learn more about the Sami culture.

# Sámi experience with action and excitement

Sokki Adventure is known for their adventurous ways of Sámi storytelling often combined with activities engaging the guests in fun competitions such as trying your hand at traditional Sámi lasso throwing with contests or reindeer racing with traditional sledges.

Join us for your fun Sámi adventure at our camp in Guovdageaidnu (Kautokeino). Safety comes first with us, hence instructions will be given before all activities. When it comes to reindeer racing with the traditional sledges, you will get to try slowly together with us, before you can try by yourself.

The lasso throwing competitions await with a prize for the winner who manages to show the best knowledge.

After a couple of hours with outdoor fun, we will regain our energy with a warm Sámi meal in our lavvo. We serve bidus, made from first-class reindeer

meat accompanied with bread, juice and campfire coffee. Listen to more of our stories and the traditional Sámi joik.

Sámi storytelling at Sokki Adventure.

# A deeper insight to the living Sámi culture

Would you like to take part in a distinctive Sami experience? Join us at our camp in Guovdageaidnu (Kautokeino) for a day of storytelling and activities with Sokki Adventure, giving you an unique possibility to get close to the living Sámi culture, the way of living as semi nomadic reindeer herder combining both tradition and modern equipment, and our food cradle providing the locals with the purest ingredients one could wish for.

Through our activities you will learn more and can try your hand at traditional Sámi lasso throwing.

Our lavvo at the campsite is the cosy backdrop where you can listen to the many and varied stories Aslak, owner of Sokki Adventure, has to tell, accompanied by a taste of local sámi food and a joik or two for a musical ending of your insightful day.

# Unique experience with reindeer herders – Spring migration

Have you always dreamed of joining reindeer herders for spring migration with their reindeer herd? This is your chance!

Reindeer herding is managed by Sami reindeer herders in the traditional way somewhat modernized, and reindeer herders are semi-nomadic to this day. This means that we move with the herd from winter pasture to summer pasture.

We will offer you a unique trip with us to the mountains in fantastic nature where the reindeer herd is, to move the reindeers towards the summer district by the coast. Our winter district is in Kautokeino and we will move the reindeer herd over the tundra all the way to the coast.

You will have the opportunity to live in a traditional lavvu and eat traditional Sami food, which mostly consists of reindeer meat.

The activities consist of, among other things, moving the herd, herding the reindeers, ice fishing and making of Sami meals. But just the stay in the lavvu in total silence with the view of reindeers on snow covered tundra away from stress of civilisation, is a holiday on its own.

Reindeer herders move with snowmobile, but you will have the opportunity to move traditionally with reindeer sledding.

# Unique stay at a reindeer herd with Reindeer herders

Have you ever wondered what a day with Reindeer herders looks like?  
Join us for reindeer herding in a traditional way with modern and comfortable solutions.

Sami Reindeer herders still practice reindeer herding in a traditional way, but modernized.

We want to welcome you to us in Kautokeino for a stay at our reindeer herd in Kautokeino community, 50 km away from the village.

Sami reindeer herders follow the reindeer herding year through the eight seasons we have in a year, and in winter time we herd the herd every day.

You will have the opportunity to live in our small cabine with comfortable beds, warm fireplace in the middle of nowhere..

The activities consist of, among other things, reindeer herding, migrating, gathering the herd and other work. And other activities such as harvesting what nature has to harvest in each season, ice fishing or fishing with a pole in the summer.

The activities are seasonal and depends on when you visit us.

# Ice fishing with Reindeers as transportation

We want to invite you to join us for some Ice fishing in our local lakes with arctic char in.

We will also serve you Traditional Sami meals of either Arctic Char or Reindeer meat cooked on open fire by the lake inside a traditional Sami tent called lavvu.

You can hear stories about our culture and way of life while enjoying Sami tra-

ditional meals and hot beverage inside the lavvu.

We will travel by Reindeersledding, which is how Sami people travelled before the roads came in the 1960s. The lake is located 3-4 km away from the main Road.

You have to be in good shape in order to participate in this activity.

Have you ever dreamed of visiting a Reindeerherding family at their home? This is your opportunity. The Oskal Family is a family over 3 generations and they would love to welcome you to their home as their guests.

# Visit a reindeer herder family at their home

This is an exclusive and unique opportunity to meet a reindeer herding family. We will welcome you to their home and as a guest in their home they will serve you Sami traditional meal which is seasonal. You will also be able to participate in some traditional activities which are also seasonal, such as making of "Duodji", Sami traditional handcraft.

Did you know the Sámi have 8 seasons in a year? Each season has its own activities and meals that belong to that season.

Sámi people are proud of their cultural heritage such as their traditional outfits and those are only meant for Sámi people to wear. But they would love to borrow you other traditional outwear

such as shoes, hat and mittens made of reindeer skin while you are visiting them. Imagine wearing warm boots made of reindeer skin, they say it feels like walking barefoot, but your feet are still warm.

They have a stationary home located 30 km away from Guovdageaidnu (Kautokeino) village. The main herd is on the mountain, but they always have some tame reindeers at their home.

# Exciting reindeer sledding competition

Sámi reindeer herders arrange championships in Reindeer sledding?  
Do you want an exciting and fun competition challenge with your friends or family?

Reindeer herders arrange a Championship among each other in Reindeer-sledding every year. We also arrange an exciting Reindeer competition for our guests, and now you can participate!

These are magical moments that are worth experiencing.

By the way, did you know that Máze was the inspiration for the Disney movie Frozen 2?

More about reindeersledding: Today, we still tame reindeers in the traditional way, both to be able to take care of traditional knowledge and to keep the heritage alive, and because we use our tame reindeer during the reindeer

migration. After we return to the camp, we move into the heated lavvo, sit around the fire and listen to stories about old traditions and customs such as the proposal ride, while we enjoy a good cup of coffee from the fire and strengthen ourselves with a small Sami snack or Sami traditional meals.

# Whale and seabird cruises

Photo Marten Brill

Come out to sea with us and experience wildlife from a boat.

On this whale and bird safari departing from Burfjord, we sail out of Burfjorden and into Kvæangsfjorden while admiring the fantastic coastal landscape. The Kvæangsfjord is where the herring enter in October, and large gatherings of whales are here to feast on their "food platter". Whale species such as killer whales, humpback whales and fin whales can be found here. In this

area where the whale stays, there is also a great opportunity to see the king of the air, the sea eagle.

There are also many other bird species there. The stay on board the boat has a duration of 3 hours. The boat spends a short time out to the whales, so there is plenty of time to observe and photograph them.

## Europes Northernmost Archipelago - hiking or kayaking

# Midnight sun in Porsangerfjorden

In the summer the fjord is swimming in sun both day and night, and we are all drawn to it.

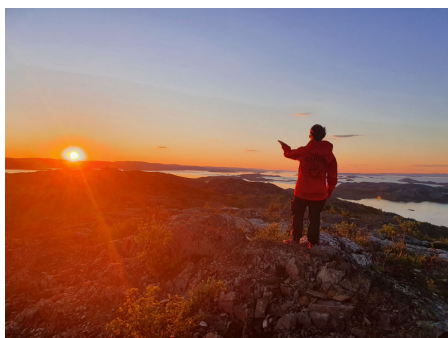

If you want to come closer to the fjord, **kayaking** in the arctic is an memorable experience. The fjord is filled with small islands, and we will paddle towards the famous Reinøya, with unique geological formations.

For more of the midnight sun experience, we recommend a guided **Midnight-sun hike** to get the very best view of the fjord as the sun gets nice and low in the horizon, without ever leaving completely. Early, and late, in the midnight sun season, the sky lights up in amazing colors.

# Dogsledding – learn to mush

Ready to learn how to do dogsledding?

At Pirate Husky you are a part of the whole experience. We will teach you how to prepare the dog teams, and how to drive the sled. Hear the howling og eager sled dogs as we preapare for the trip, feel the butterflies in your belly as we start out from the kennel, and the silence that covers us as we sled into the arctic nature. Are you ready for the challenge?

We have different trips of length and challenge, from our short trip "A taste of Dogsledding", our most popular trip "Halfday dogsledding" or if you really want to test the musher life, "Full day dogsledding".

# The magic of the sky: Northern lights with local charm

Spend an evening together with us around the bonfire as we scout for the Northern lights.

Have you heard about the northern lights, but never seen them? Then join us on the chase for that magical light!

We meet at our home place Wild Caribou where we give you a warm welcome. We will make you ready for some hours of typical Norwegian outdoor life and head out for a walk on our Tranquillity Path. We will guide you through the arctic nature with wild animal life close by, tell you the story about our sculpture "The original icon of Wild Caribou" and introduce you to the science of Northern lights.

After the tour, we light a fire under the star sky, enjoy hot beverages, and while the fire is crackling we wait for the Northern lights to appear!

If we are lucky, right above us they suddenly dance over the sky - a goose-bump-experience!

In order to catch memorable pictures we walk around in our Oasis of calm to find the best shooting places. One of our favorites is the "Falcon's nest" - a tower above the trees from where you have the view to all directions of the sky!

Last, but not least, we show you our own atelier, where we lovingly forge silver jewelry. All our jewelry is arctic nature inspired - memorable pieces that talk to your soul and for sure are a wonderful memory to bring home.

# The cosiness of an Arctic Lavvu

## Eat - Relax - Walk

Change your car window view into a walking experience and revitalise in our Oasis of calm.

Have you been driving long and feel the urge to stretch your legs? Then you are on the right place!

Here at Wild Caribou we have all you need to turn your pit stop into a wonderful nature experience.

By your arrival you will be welcomed with a local and tasty meal in our homely and warm traditional tent - a lavvo. While you eat you can enjoy the relaxing crackling of the bonfire, drink Norwegian coffee prepared on the fire and appreciate the wild forest.

After the meal our Oasis of calm is waiting for you. The Tranquillity path is leading you. Along the way you find panels with information about arctic fauna, flora and natural phenomena.

A bird tower with nice view, our sculpture "The original Icon of Wild Caribou" made out of a thousand of reindeer antler, the plasking salmon in the river and our polar dog kennel are some of the highlights during your walk.

The Original Icon of Wild Caribou.

At the end of your walk you will reach our shop. Here you can find our handmade silver jewellery - inspired by arctic nature and nordic culture, and also many other unique memories from Norway.

Spend an extraordinary night under the Northern lights.

# Magical glamping night under the Northern lights

You want to make your adventure in Northern Norway more exciting?

Then our Aurora Dome is just made for you. The Dome gives you an enjoyable way to spend a night in the wilderness watching the Northern Lights. With the window in the top you have a wide view into the sky, the see through side wall is directed towards our own build sculpture "The Icon of Wild Caribou" and into wilderness.

The scenery into nature is breathtaking even on cloudy nights, where the Northern lights may not appear! Wild arctic animals, like foxes, elks, hares and deers, live around us and may show up.

To make your experience of feeling the heartbeat of the Arctic complete you can stroll along our path of silence, through arctic forest and along slow river. You will

find information about the animals and natural phenomena.

A local and ecological snack is waiting for you when you arrive and in the morning we serve you a good breakfast with local ingredients and eggs from our chickens. Feel free to bring with you a dinner to prepare and enjoy around a bonfire in front of the Dome.

# Experience the Arctic nature on snow shoes

Spend a beautiful day in the fresh air - Half day.

Choose to go for this amazing adventure! We strap on the snow shoes and dive straight into to wonderful Norwegian winter wonderland!

From our base Wild Caribou we head out into the wilderness. From there we find a track we can follow through arctic forest, along a frozen river and, if the weather allows it, into the lower mountains. We follow wild animal tracks and see how animals live and survive in the snowy nature, at the same time we explore the surroundings.

We will be rewarded with nice views along our trip!

The trip goes about 3 to 4 hours and, halfway, we relax around a bonfire and eat a tasty snack prepared on the fire.

# Your 'Verdde', in the heart of Finnmark

We offer comfortable and affordable accommodation in the city center, close to nature, culture & friendly people.

Verdde is the short version of the sami word 'verddevuohhta'. It translates to «guestfriend» and is the story of how people in the area at all times have helped each other survive. We want to live up to this tradition and will provide our guests with advice on what to do and see when they visit us.

Our desire is to help give our guests the opportunity to learn about and experience the uniqueness of our nature

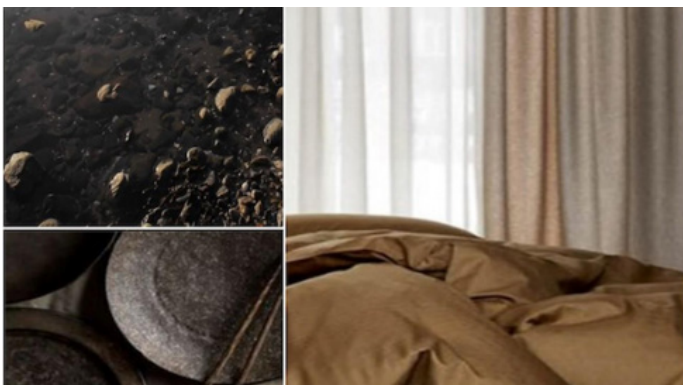

as well as the Sami and Kven language and culture. We offer the best starting point for exploring the surrounding area and the region, located in the heart of Lakselv.

# Reindeer herder for a day?

Join a Sámi reindeer herder to his herd and get an unforgettable experience in scenic surroundings.

A day with a reindeer herd is a phenomenal way to get up close to the semi-nomadic life of the Sami people who practice reindeer herding. You will have the opportunity to take part in their everyday life as a herder.

Reindeer herding involves controlling the herd and getting them to graze.

The herder must be able to anticipate the animals' movements based on their knowledge of the reindeer's natural behavior during different seasons.

In almost untouched Norwegian nature, you will be able to experience reindeer up close and be served traditional Sami food in a lavvo, a traditional Sami tent.

Forget about time, enjoy the sound of silence and feel the closeness to nature!

Weather can vary from freezing cold to brilliant sunshine, making this experience truly special.
